GLOVE BOXES EXPERT

G(BOX)

MODULAR GLOVE BOX
UNDER REGULATED ATMOSPHERE

- For **scientific** and **industrial** applications
- Regulated and climatic **custom** glove boxes

ADVANTAGES

- ▼ Flexible and easily upgradable design
- ▼ Standard and custom models
- ▼ Possible connection with other range of JACOMEX glove boxes
- ▼ Fitted for moisture controlled atmosphere (automatic regulation 0-70% RH)
- ▼ Wide range of transfer systems
- ▼ 3D design drawings

TECHNICAL DATA

- ▼ Tightness class 1 according to ISO 10648-2 (oxygen method) Leak rate < 0.05 Vol%/h
- ▼ Silicon-free gaskets (removable panels)
- ▼ Chamber: stainless steel X2CrNi18-9 (AISI 304 L)
- ▼ Front panel: polycarbonate - mineral laminated glass
- ▼ Roof lighting (LED spotlights)
- ▼ Height adjustable stainless steel shelves
- ▼ Feedthroughs : 1 electrical 220V + 2 ISO KF40
- ▼ Automatic pressure regulation
- ▼ Compatible with all JACOMEX options and equipment

POSSIBLE APPLICATIONS...

- ▽ Configurable climatic chambers:
 - Moisture (% RH): drying and/or humidification
 - Temperature: heating and/or air-conditioning
- ▽ Development of Perovskite photovoltaic cells (PSC)
- ▽ Low-oxygen reducing atmospheres against flammability or explosiveness (chemical substances, powders...)

Research

- ▼ Glove Box for studies on Perovskites
 - Atmosphere with reduced oxygen concentration (%) and adjustable controlled moisture level (% HR)
 - Integrated spincoater

Protection

- ▼ Glove Box in st. steel US 316L
 - easy-decontaminable workstation
 - Cleaning and waste recycling
 - Temperature control
 - Relative moisture control (0-70%RH)
 - Lifting panel in laminated glass

Industry

- ▼ Glove box with rounded corners
 - Double side workstation
 - Oxygen control
 - Easy cleanable working area
 - Transfer chamber to a clean-room with interlocked doors

This model is first and foremost a custom glove box that is ideally suited for special applications requiring controlled and adjustable atmospheric conditions (temperature, humidity, oxygen ...)
